## Hiring Manager

Mega Web Link Pvt. Ltd.  
Kathmandu, Nepal

Subject: Application for Frontend Developer Position

Dear Hiring Manager,

I am excited to apply for the Frontend Developer position at Mega Web Link Pvt. Ltd. As a motivated developer who has recently completed a Bachelor's degree in Computer Engineering from Nepal College of Information Technology, I am eager to bring my web development skills to your innovative team.

Throughout my academic journey and ongoing training in React.js at Broadway Infosys, I have developed a strong foundation in building responsive and user-centric web applications. My technical skills include proficiency in HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS, complemented by hands-on experience with tools like Git and Vite.

Notable projects I've worked on include an **AI Trash Detection Website**, where I integrated a machine learning model for real-time waste classification and educational content on recycling, and a fully responsive **e-commerce clothing website**, designed to enhance user navigation and accessibility. These experiences allowed me to combine technical expertise with creativity to deliver functional and visually appealing web solutions.

What particularly excites me about Mega Web Link Pvt. Ltd. is your commitment to delivering cutting-edge web solutions that impact users positively. I am confident that my technical proficiency, problem-solving mindset, and dedication to creating exceptional user experiences align seamlessly with your company's goals.

I look forward to the opportunity to contribute my skills and enthusiasm to your team. Thank you for considering my application. I would welcome the chance to discuss how I can add value to Mega Web Link Pvt. Ltd.

Sincerely,

**Samyak Bajracharya**
