👤 PROFILE

Motivated and detail-oriented Frontend Engineer with a strong foundation in web development and user-centric design. Recently completed a Bachelor of Computer Engineering and currently undergoing advanced training in React.js at Broadway Infosys. Passionate about building responsive, dynamic, and visually appealing web applications. Skilled in HTML5, CSS3, JavaScript (ES6+), and React.js, with experience using Tailwind CSS, Git, and Vite. Eager to apply technical knowledge to real-world projects, contribute to cross-functional teams, and grow as a skilled frontend developer.

🎓 EDUCATION

Bachelor in Computer Engineering
Nepal College of Information Technology

High School
Trinity International College

✂ SKILLS

Frontend Development:
 HTML5, JavaScript (ES6+), React.js, React Router, Tailwind CSS

Tools & Platforms:
Git, Vite

Soft Skills:
Problem-solving, Teamwork, Communication, Attention to Detail

📁 PROJECTS

Clothing website
HTML5, CSS3
- Built a fully responsive e-commerce website for a fictional clothing store.
- Designed an intuitive, clean, and user-friendly layout, ensuring smooth navigation and accessibility.
- Created a product gallery with organized sections for displaying clothing items, images, and descriptions.

AI Trash Detection Website
React.js, Machine Learning Integration
- Developed an AI-powered website that identifies whether trash is recyclable or non-recyclable.
- Integrated a machine learning model for real-time classification of waste items.
- Provided users with educational information about recycling, encouraging sustainable waste management.
